High-dexterity grain kidskin, with seamless index finger for good hand control.

35KE Sizes: S, M, L, XL

UNLINED DESIGN
maintains finger
nimbleness

**EXTRA-PREMIUM
GRAIN KIDSKIN**
offers superior dexterity
and finger control

KEVLAR® STITCHING
provides greater
protection against
sparks, with better
abrasion resistance

Targeted Applications & Industries

Thinner kidskin leather offers exceptional finger control, while still providing durability and abrasion resistance, making this glove a premium choice for all TIG welding applications

Kidskin Leather is a well-rounded leather, with its adaptability, durability, suppleness, and lightweight, making it ideal for TIG Gloves.

Kevlar® stitching provides greater protection against sparks, with better abrasion resistance
