Cutban™

Black Tapered Cut-Resistant Sleeves

#KP1T

Black Cutban™ sleeves are knit with a high-tenacity filament yarn that offers tough, durable ASTM cut-level 2 protection (850 grams of cut resistance). This single-layer sleeve is tapered at both ends for extra comfort.

The tapered knit fit is combined with our STAYz-UP™ technology – an elastic armband with polymer dots that essentially eliminates any sliding or slipping of the sleeves. This updated STAYz-UP™ sleeve technology is sewn in our newly developed SMART-TENSION machine, giving the elastic armband twice the stretch and recovery of our last generation sleeves.

Available in 10" (KP1T10), 12" (KP1T12), 14" (KP1T14), 18" (KP1T18), 22" (KP1T22) length without thumbhole. 10" (KP1T10TH) 18" (KP1T18TH), 22" (KP1T22TH) length with thumbhole.

Not for spark and flame applications.

Note: Styles feature a tapered design, where the 5" wrist portion is knit in a finer gauge, and the remaining upper portion in a bigger gauge for a more natural, tapered fit.

TESTIMONIAL

Corporate Safety Manager, Price Industries Limited

"Thank you for finding us a better replacement for the cut sleeves we had been using; the comfort of the sleeves you located for us helps with the worker acceptance which makes things much easier to implement."

Cutban™

850 grams of cut protection.

FEATURES

- Single-layer filament-yarn sleeves are tough and durable
- Tapered knit at both ends
- Elasticized STAYz-UP™ non-slip biceps
- Available with or without thumbhole
- Fully washable

APPLICATIONS

Metal Handling
Automotive
Metal Fabrication
