Goat-Grain Driver Gloves with
Full String-Knit Kevlar® Liner

#378GKTKL

Goatskin has high tensile strength and abrasion-resistant properties and is often referred to as nature's strongest leather. Soft and lightweight, our white drivers-style, goat-grain leather glove is fully lined with Kevlar® for the added bonus of cut resistance. And unlike other Kevlar®-lined gloves, we've used a cut-and-sewn knit for optimal fit, since seamless string knits are ambidextrous, and as such tend to cause bunching in areas like the thumb. Our cut-and-sewn liner dons much more easily than a seamless knit, since it is tailored to the hand using a much finer-gauge knit than a regular string-knit Kevlar® glove. Because of this high strength-to-weight ratio, our Endura® goatskin all-leather drivers are much tougher and more durable than their suppleness leads you to think. Keystone thumb provides extra durability.
