

IMPACTO® FOOT PROTECTION

Puncture Resistant Anti-Fatigue Insoles

- Stainless steel plate provides protection against puncture wounds to the feet caused by sharp objects such as nails, scrap metal, iron shards and rocks
- Meets minimum force resistance of 270 Lbs. as specified in ASTM F2412-18/F2413-17
- Transforms low-cost boots and shoes into orthotically comfortable, puncture resistant footwear for a fraction of the cost associated with high-end work boots
- Helps prevent the risk of bruising, turf toe and infections caused by injuries
- Hypo-allergenic fabric cover wicks away moisture
- Used in many industries including construction, mining, manufacturing, fire fighting, forestry and landscaping
- Comfortably fits in most types of boots and shoes
- Lightweight and flexible for continuous wear
- Helps decrease worker lost time, injury compensation and insurance premiums
