

PELTOR™

# Sounds Clear Fits in the ear

## 3M™ PELTOR™ ORA TAC In-Ear Communication Headset

- **Hearing Protection and Situational Awareness**  
Designed with level-dependent technology which helps provide hearing protection and situational awareness. This can help enable users to maintain some natural hearing ability, while also helping to protect from sudden impulse noises and other hazardous sound.
- **Communicate**  
Easy-to-access radio connect/disconnect interface makes it easy to attach a 2-way radio. In-ear speech microphones enable two-way communication and is compatible with many types of Personal Protective Equipment (PPE).
- **Reduce weight and heat**  
No ear cups so there is reduced weight and heat. Fits with many respirators, eyewear, face masks, helmets and hard hats.

# 3M™ PELTOR™ ORA TAC In-Ear Communication Headset

## Level-dependent Hearing Protection for Improved Situational Awareness

### Compatibility

Designed without boom microphone or ear cups to enable compatibility with select head, eye, and face PPE.

### Clear Communication

Level-dependent technology helps enable situational awareness and two-way communications while providing hearing protection.

- Level-dependent microphones help enable situational awareness.
- In-ear speech microphones allow out-going voice transmission for two-way communication via radio.

### User Interface Buttons

Two radio push-to-talk buttons and talk-thru volume up/down.

### Hearing Protection

Changeable communication eartips help provide users with choices for a variety of noise levels and ear canal sizes.

### ⚠ WARNING!

#### Hearing Protection Products\*

These hearing protectors help reduce exposure to hazardous noise and other loud sounds. **Misuse or failure to wear hearing protectors at all times that you are exposed to noise may result in hearing loss or injury.** For proper use, see supervisor, user instructions, or call 3M Technical Service in the U.S.A. at 1-800-243-4630. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing earplugs. Failure to do so may result in hearing loss or injury.

Choking Hazard - Keep away from infants and small children.

#### Noise Reduction Rating (NRR):

\*Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in hearing protector fit, fitting skill and motivation of the user. It is recommended that the NRR be reduced by 50% to better estimate typical workplace protection.

3M recommends fit testing of hearing protectors.

**⚠ CAUTION!** When worn according to the user instructions, this hearing protector helps reduce exposure to both continuous noises, such as industrial noises and noises from vehicles and aircraft, as well as very loud impulse noises, such as gunfire. It is difficult to predict the required and/or actual hearing protection obtained during exposure to impulse noises. For gunfire, the weapon type, number of rounds fired, proper selection, fit and use of hearing protection, proper care of hearing protection, and other variables will impact performance. If your hearing seems dulled or you hear a ringing or buzzing during or after any noise exposure (including gunfire), or for any other reason you suspect a hearing problem, your hearing may be at risk. To learn more about hearing protection for impulse noise, please visit 3M.com/Hearing.

3M Personal Safety Division products are for occupational use only.

#### Warranty:

The warranty does not cover any damage caused by neglected maintenance or careless handling. For more information on maintenance, please see the user instruction. For complete warranty condition, contact your dealer or local 3M office.

#### Important Notice

3M does not accept liability of any kind, be it direct or consequential (including, but not limited to, loss of profits, business and/or goodwill) arising from reliance upon any information herein provided by 3M. The user is responsible for determining the suitability of the products for their intended use. Nothing in this statement will be deemed to exclude or restrict 3M's liability for death or personal injury arising from its negligence. 3M acknowledges the respective Trademark Owners' rights in this literature.
