

PRESCRIPTION LENS KITS

FOR SCOTT FACEPIECES

CUSTOM ENGINEERED SPECTACLE KITS

Scott Prescription Lens Kits provide the wearer with a comfortable optical system that is precisely sized, shaped and angled for each facepiece type. Two styles are available for each facepiece type, to suit user preferences, and both are easy to install in the facepiece and provide a large field of view. Each style can be adjusted by the user for maximum comfort.

Standard size prescription lenses can be installed in the lens kit by a medical professional.
